

Introduction to Risk Assessments

Overview

This practical 1 or ½ day course enables managers to understand why assessing risks is important under Health & Safety legislation. Delegates will learn how to carry out and record a risk assessment and identify the actions required to reduce the level risk in their workplace.

Target Group

This course is aimed at any personnel who have the responsibility of conducting risk assessments within the workplace.

Objectives

By the end of the course delegates will be able to;

- ✗ Provide a positive and tested method of conducting assessments
- ✗ Understand the difference between "hazard" and "risk"
- ✗ Feel confident in conducting risk assessments within the workplace

Course Content

This course covers the following areas / topics;

- ✗ Legislative requirements
- ✗ Quantifying risks and hazards
- ✗ The need to manage health and safety
- ✗ The principles and practice of risk assessment
- ✗ Methods of conducting risk assessment in the workplace
- ✗ Recording the assessment
- ✗ Using the assessment as an aid for monitoring health and safety in the workplace

Outcomes

Upon successful completion of the assessments delegates will be awarded a Risk Assessment certificate.
